

Hello Guido,

My name is Nelson one of the local heroes from the superheromarket. First of all I want to give you thanx for making this possible. You ordered to take somebody into nature, but because of the bad weather we have for month now it was not possible to do that. Also it is too expensive to get transport. Last October I started to study 'Hospitality Management' and I invited Oscar Alverado; one of my classmates, to my house to stay overnight and invite him for dinner and breakfast the next morning. I also gave him a pair of my shoes because his shoes where in a bad condition and I felt sorry for him and decided to help him with one of mine.

I choose Oscar because he is one of the guys I admire in class, because he doesn't have a dad, his mum is very sick, he is supporting his own studies and he is a very smart guy. First I took a picture of him and some other classmates during school. After school I invited him to come with me to my house, after a while we went to the football field, spend some time together and I treated him a soft drink and some tamales, a local dish made of corn flower and chicken, wrapped in banana leaves. When we came back to my house, we prepared dinner together as you can see in the pictures. We went to sleep early because we had to get up early the next morning. I woke him up at 6am and we prepared breakfast together. We walked together to school. Oscar was very happy to stay at my house and for the treatment. He liked the shoes, he put them on to go to school.

For me this is a very good experience that you made possible and encourage me to continue working for the good deeds. I never saw myself doing things like this before. I very much enjoy to see people that are sad to be happy for a moment, that they can forget their problems for a moment. I want to give you thanx again, I hope that you like it and I hope to hear from you.

With special regards,

Nelson
